STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Goffstown, in the County of Hillsborough, in said State, Qualified to Vote in Town Affairs:

You are hereby notified to meet at the town house in said town on Tuesday, the thirteenth day of March next, at nine o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers and agents for the ensuing year.

2. To raise and appropriate such sums of money as may be necessary for the support of schools for the maintenance of the poor, for the repair of roads and bridges, and for Memorial Day.

3. To see how much money the town will vote to raise for the Rogers Free Library.

4. To see how much money the town will vote to raise to pay on the existing debts of the town.

5. To see what sum of money the town will vote to expend for the repairs of highways and bridges for the ensuing year.

6. To see if the town will vote to comply with the provisions of the law for the purpose of procuring state aid for highways.

7. To see if the town will vote to instruct the selectmen to procure Welman Lowering devices for use in the cemeteries of the town and appropriate money for the same.

8. To see if the town will vote to have additional faucets placed in the cemetery at Grasmere for the better distribution of the water supply.

9. To see what action the town will take relative to the writing of a town history, and appropriate money for the same.

10. To see what sum of money the town will vote to raise for improvements in cemeteries.

11. To hear the reports of agents, auditors, and committees, and pass any vote relative thereto.

12. To transact any other business that may legally come before said meeting.

Given under our hand and seal the twenty-fourth day of February, 1906.

GEORGE L. EATON,
WILLIAM P. HADLEY,
HERBERT E. POORE,

Selectmen of Goffstown.

GOFFSTOWN, February 15, 1906.

REPORT OF THE BOARD OF HEALTH.

The year has been quite a busy one for the Board of Health, owing to the prevalence of contagious diseases, making work for the board in the placarding of the houses, and the subsequent disinfection. There has been reported to the board 78 cases of contagious diseases, divided as follows: Measles, 51 cases; typhoid fever, 2 cases; membranous croup, 3 cases; scarlet fever, 4 cases; diphtheria, 4 cases, and tuberculosis, 10 cases. We have also been called to investigate four complaints of nuisances, two of them near the Manchester line, and in all the cases the nuisances have been abated. Placards in regard to spitting in public places have been posted, and all complaints reaching the board have been investigated.

The board wishes to call attention to the fact that all cases of tuberculosis must not only be reported to the Board of Health, but if a case is removed from one house to another, or from one town to another, that such facts must be reported to the board, and that such houses as have contained tuberculosis patients must be disinfected as fully as in any other contagious disease. We would also call your attention to the order from the State Board of Health in regard to children with any of the infectious diseases attending school.

Respectfully submitted,
EDDY B. SWETT, *President*,
FRANK BLAISDELL, *Secretary*,
MAURICE A. STARK,

Board of Health

REPORT OF THE TRUSTEES OF THE ROGERS FREE LIBRARY.

In making this report we feel that we are fast approaching the time when it will be necessary to make some provision for the future. We have procured two new bookcases and placed them in the reception room, as the other space is already crowded.

We are in hopes the selectmen will see fit to decorate the interior, and thus improve the appearance of the library.

The trustees still desire to receive by gift or purchase the histories of the different towns in the state, and parties knowing where these histories are to be found will confer a great favor by notifying us.

REPORT OF THE TRUSTEES OF CEMETERIES.

This year has seen a general improvement in the care of the village cemetery as a whole, and a renewed interest among the lot owners has brought about many improvements by individuals owning lots there. The lots having perpetual care have been brought up into good shape and received good care.

The Goffstown Unity Club has continued its good work, and under the care of the ladies the drives and walks have been improved and several lots graded. Shrubs have been set out throughout the cemetery, and more are to be put out in the early spring. A row of maple trees have been set out in front of the cemetery, which will add much to the beauty of the place. For this work the trustees feel most grateful to the ladies of the Unity Club.

A few years of this good work will transform the cemetery from a barren spot into a beautiful cemetery, of which all Goffstown people will feel proud.

Part of the new extension has been graded and laid out symmetrically into lots. It is the intention of the trustees to have this part laid out as a lawn, this being the plan now generally followed in laying out cemeteries. The land is thus more economically used, the effect much finer, and the lots more easily cared for.

The fence around the Grasmere cemetery has been straightened up, new posts put in where needed, and, with the addition of a good coat of paint, now presents a marked improvement. We hope the town will take some action at the coming town meeting to increase the water supply, as at present there is but one faucet, and that at the farther side of the yard.

The people of Shirley Hill have also commenced the work of improving the cemetery there.

During the year the trustees have received the Mary Prescott Sibley bequest of \$300; also \$100 from Mrs. E. C. Shirley for perpetual care of lot at the village cemetery.

We are pleased to note that the interest taken by the citizens of the town in this work is fast increasing, and we wish to thank them for their hearty co-operation.

REPORT OF THE BOARD OF EDUCATION OF THE INDEPENDENT DISTRICT.

The Board of Education for the Independent School District respectfully submits the following report:

The conditions confronting your board during this year have at times been very discouraging, yet the year taken as a whole has been one of the most successful in the history of the school. At the close of the school year in June, we were confronted by the resignation of four teachers, the principal, Mr. Pierce, resigning to take a school in another state, at a higher salary, Miss Simons to take a school nearer home, Miss Seeton to enter the business college at Manchester, and Miss Kendall to teach in Massachusetts. They were all good teachers, and we were sorry to lose them, but we were very fortunate in finding good teachers to take their places. For principal we secured Mr. Charles Walker of Mechanics Falls, Me. Mr. Walker is a graduate of Bates College, has had experience in teaching, is a good instructor, his discipline is good, has the respect and good will of his pupils, and his term of service has been very satisfactory. For first assistant we secured Miss Sally Clough of Arlington, Mass. Miss Clough is a graduate of Boston University, a splendid teacher, and universally liked by her pupils. The second assistant is Miss Margaret Anderson of Andover, Mass., a graduate of Mount Holyoke College, is well fitted to do the work, and is a valuable teacher. The teacher in the intermediate room is Miss S. Anna Curtice of Bristol, a graduate of the Lowell Normal School, and to say that she has kept the school up to its former standard is praise enough. We were fortunate to

again secure Mrs. Mae Clough Poore as music teacher. Mrs. Poore teaches because she loves the work, and we know of no schools whose music department is in any better shape than ours.

It has been the custom to say of the older teachers, who have been with us so long, that we expect good work of them, and we get it, and we feel as if it were their due to speak of them individually. Miss Blood, in the grammar room, is the same faithful, hard-working teacher she has always been. Miss Warren, who now has the second primary room, is doing just the same faithful work that she did for so many years in the first primary, and Miss Tuttle has proved a worthy successor in the lower primary. We should feel that we were not doing our duty if we omitted to speak of our faithful janitor, Mr. Brown. His economy of fuel, the neatness of the rooms and their comfortable temperature during cold weather, and his courtesy, are all very pleasing to us.

You will remember that at one of the meetings of the district you voted to have the boiler insured. Correspondence was entered into with one of the best companies, who sent their inspector here, who, on examining the boiler, pronounced it worn out and unsafe. The district at a subsequent meeting voted a new boiler. Mr. White and Mr. Gordon were appointed by the board to see to this. How well they attended to their duties their report will show.

You will also remember that the toilet rooms had become so unsanitary as to be a menace to the health of the scholars. The district appointed a committee to see to this. This committee was a very efficient one, and has given us a set of toilet rooms that are sanitary, convenient, and complete. The work of this committee has been very pleasing to the board and the school building is now in very good condition. We wish also to speak of the complete harmony existing among the teachers. They all work as a unit for the upbuilding of the school, and the work of management is made much lighter.

We have felt for some time that there should be more work

done in arithmetic, in the grades, than there has been, and that the pupil should come up to the high school better fitted than he has been in the past. A careful consideration has convinced us that this was in a great measure due to the text-books used, and we decided to introduce "Nichols' Graded Series of Arithmetics." We also, on the score of economy, introduced "The Gilman Writing Books," and although it is too early to decide, we hope for a decided improvement.

For some years drawing has not been taught, for the reason that there has been no text-books which could be used to advantage without a teacher of drawing. Some months ago the Prang Educational Company of New York issued a graded series of "Text-books of Art Education," which were so well adapted to our needs that we adopted them, and it is believed that they will supply a long-felt want. We feel that the school is now in better shape to do efficient work than ever before.

Among some of the other changes made have been the reintroduction of book-keeping and the taking up of chemistry. These studies were not dropped because there was no need of them, for both are very important, but were dropped because there was not time to teach them. That we can take them up again is due to the second assistant, whose employment has given the necessary time to take up these studies; but we could not introduce another study, as all of the teachers are working their full number of periods. We also hope to introduce some time during the year, what is known in other states as "Parent's Day." This is a day set apart in which some work from each pupil is exhibited, and in which the recitations are heard, and gives those most interested one day of their own.

There is some misunderstanding among the parents in regard to the course of study, particularly in the High School, some not understanding why a pupil cannot be allowed to change a study they do not like for one that they prefer. In regard to this your board would say, that in order to be

an accepted High School, as we are, we are obliged to submit our course of study to the State Superintendent of Public Instruction. If he accepts it we become an accepted High School, and are allowed to charge tuition for those who come in from out of this district. But we are not allowed to change the course without his consent. If we do we lose our position as a High School, and cannot charge for outside pupils, so this matter does not lie entirely with us. The pupil is allowed to choose when they enter the High School what course they will take, and after this choice is made they must stick to it. Unless this is done a chaotic condition results, and the whole scheme of education is defeated.

We make this explanation because the board is constantly receiving requests from pupils who, when they come to a study they do not like, often wish to change to one they do like, and oftentimes the study they prefer is preferred simply because it is easy, while the study they wish to give up may be the most important to them in after life.

REPORT OF THE SCHOOL BOARD OF THE TOWN SCHOOL DISTRICT.

To the Voters of the Town School District:

As each year of school work draws to a close it is expected that the school board will present some form of a report. In former years it was the general custom among the various towns for school boards to give a detailed report of the work done. This method having been abandoned in the larger towns, we heartily fall in line.

The money voted by the district at the last annual meeting for moving the schoolhouse on the Mast road has been expended by the committee chosen at that time. A suitable lot was purchased a mile or more towards Manchester from its former site, and the schoolhouse and shed moved to that location. The house has been shingled and painted. Repairs are yet needed to make the interior presentable.

Schools have been held in all the divisions during some part of the year. The school at Grasmere was closed a week during the fall term, the result of an epidemic of chicken-pox, and that on Pattee hill two weeks this winter on account of the measles.

The board returns its thanks to Mr. George Perkins for a large map of the United States, donated to the grammar room at Grasmere.

Owing to a change in the law in regard to raising school money by the last legislature, we shall not be obliged to raise any extra money, as what is required by law seems sufficient for current expenses.

We believe the several teachers have labored conscientiously for the district. Some, if not all, have made mistakes; so have the members of the school board, and we think we are not uncharitable when we say that parents and pupils have not measured up to the highest standard of perfection. Let us remember that "to err is human." We must profit by the lessons of the past and labor one and all for the welfare of our common humanity.

The annual meeting of the town district will be held at the schoolhouse in Grasmere Saturday, March 3, 1906, at two o'clock in the afternoon.

Very respectfully submitted,

FLORENCE A. GREER,

HENRY M. BEARD,
